

2024 General Operating Grant Application

Instructions for Completion of Application Read Carefully

- Consult the Health Sciences Centre (HSC) Foundation General Operating Grant Application Guidelines to determine eligibility and requirements.
- An electronic PDF version of your application must be submitted to the Research Grants Officer. Ensure that the PDF includes all documents in your application (including applicable approvals if they have been received). The PDF is circulated to the reviewers and must contain all relevant documents.
- **Contact Information (Section 1)**
Please provide a current departmental address of Principal Investigator(s), information about co-investigators, and a synopsis of the proposed project (50 words or less). Signatures of the Applicant, Department Head and Director of Research are required in this section. Electronic signatures are acceptable.
- **Proposal Highlights (Section 2)**
It is essential that the HSC Foundation and its donors understand the value of your research proposal. Please describe the project in lay terms; use non-scientific language.
- **Scientific Abstract (Section 3)**
A summary of the proposal including objective(s) and outline of no more than 200 words should be typed on this page. This should be the same, or very similar to what was submitted at the LOI stage.
- **Research Proposal (Section 4)**
The detailed research proposal must be in PDF format and not exceed 10 single-spaced typewritten pages (Calibri or Arial font, size 10-11, normal margins) excluding references, figures, appendix, and letters of support.
- **Roles (Section 5)**
Describe the roles of each investigator and the percentage of time each investigator is expected to contribute to the overall time required to complete the project.
Where collaborators will be included, describe their role and contribution. It is advisable to append letters from major collaborators who are not co-investigators to substantiate their willingness to participate in the project.
- **Timeline (Section 6)**
General Operating Grants will be awarded by May 2025. The terms of the awards are September 1, 2025 to August 31, 2027. Please indicate the expected timeline for approvals, account set-up, and milestones during the following periods. Please indicate how much of the Principal Investigator(s) and Co-Investigator(s) time are allocated for research and how the project will fit into their schedules.

- **Location of Project (Section 7)**

Funding is available for research or researchers at HSC. Priority will be given to proposals for research completed exclusively at HSC or its affiliated facilities and/or programs. The Applicant must clearly describe where each phase of the project will take place (subject recruitment, lab, data analysis, evaluation, etc.).

- **HSC Account Administrator (Section 8)**

Any grant provided by HSC Foundation and administered through HSC Finance must adhere to the Shared Health Research Accounts Policy (330.140.100). Name and title of the Account Administrator and Fund Signatories is required for all HSC Finance Accounts.

- **Partnership Funding (Section 9)**

Applicants are encouraged to use HSC Foundation grants to attract partnership funding from other sources. Please provide related information.

Applicants submitting the same proposal to CancerCare Manitoba (CCMB) Research Grants competition or Children's Hospital Research Institute of Manitoba (CHRIM) must declare if the same proposal has been submitted to both organizations. HSC Foundation may choose to partner with CCMB or CHRIM to co-fund the application if applicants demonstrate exceptional scientific merit and meet the funding priorities of both organizations.

- **Budget (Section 10)**

If concurrently applying for the same project for funding by another granting agency you must use the same budget for your HSC Foundation application as for your other application.

Grants are designed for the support of health research (which may include research personnel, equipment, and other normal direct costs). The Foundation does not support overhead fees through its grants, and funds received are not to be used as salary for the primary or co-investigators, post-doctoral fellows, or as a student stipend. In addition, the HSC Foundation does not support conference or seminar attendance or costs as part of operating grants funding.

- **Personal Data (Section 11)**

Section 11 is optional and can be used to explain interruptions in your education and/or research career (e.g. leaves, health, family circumstances, non-research positions, etc.).
